When is the resource available?

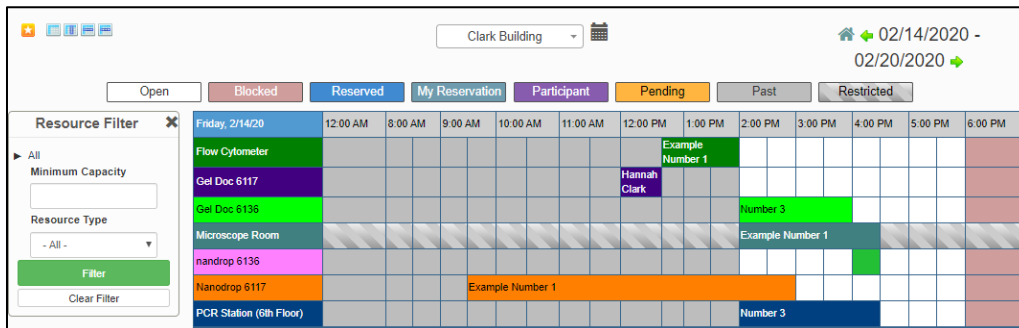

To find out when a resource is available, select "Schedules" on the top navigation menu.

Bookings and the **Resource Calendar** show all resources that have access to and any reservations that have been made.

My Calendar shows all reservations that you have created or that you have been invited to.

Find a Time allows you filter the resources, time, and availability to find the best time for you to create the reservation. As an example, you may want to see a list of all microscopes that are available tomorrow for more than 2 hours.

- To create a new reservation at a specific time, select the time that you would like to use the resource.
- To view more information about a reservation or to edit an existing reservation, click on the reservation.
